Petals

415 x 250 x 45

Solid oak

Our objects are all about silence, tranquility and self-immersion. We believe this is the experience that is sorely lacking in modern life.

Simplicity inspires not limits us. In our objects we praise calm and temperance with minimal decorative component.

We create one-of-a-kind pieces and unique handmade objects that serve for many years and decades and are passed down to further generations. Our objects fill its owners with the energy of nature.
